

INKJET PRINTER

IMAGE CLIP® INKJET HEAT TRANSFER PAPER
Product #9822P0

Designed for garment decoration using an inkjet printer. **Produces a garment with the best hand and best pastel color reproduction. Cotton, cotton blends and synthetics work well with this product.**

There is **no background “polymer window”**. The background polymer is removed before transfer using a laser printed “negative image” on plain paper. Negative images can be created in Adobe Photoshop, Microsoft Word, etc.

RECOMMENDATIONS

Product #	Fabric Color	Hot Peel	Warm Peel	Cold Peel	Hand Iron

COMMERCIAL PRESS INSTRUCTIONS

PRINTING INSTRUCTIONS:

Step 1:

1. Print reversed/mirrored image on inkjet printer onto the ‘imaging paper’.

Step 2:

1. **LASER** print a black, right reading image on the ‘copier paper’.

TRANSFERRING INSTRUCTIONS:

Step 1:

1. Mary the two images (imaging paper image, and copier paper image) together and place on heat press.
2. Press **30 seconds @ 225°F** using **medium** pressure.
3. Peel papers apart once **cold**.

Step 2:

1. Press transferred image to garment
2. Press **30 seconds @ 375°F** using **heavy** pressure.
3. Peel paper off in smooth even motion once **cold**.

**for a softer feel, re-heat the transfer and stretch it while still warm.*
