

advanced materials for Tapes

NEENAH* Flat Tape Base Papers

Neenah Paper, Inc. has nearly 50 years of experience in the manufacture of latex-saturated and coated papers used in pressure sensitive tapes. With an established track record for quality, performance and service, we are an excellent worldwide source for identification and packaging tape backings.

NEENAH* Flat Tape Base Papers are available in standard colors with or without printable coatings. If the shade you require is not currently available – we can develop the color you need - because color matching is just one of our specialties. Our proprietary chemistry and technology provides products with excellent temperature, water and chemical resistance, allowing your final tape product to better withstand most harsh environments.
